1. NOTICES OF MOTION - (MCA- PAUL KIMANI NJUGUNA)

NOTICE OF MOTION: SENSITIZATION AND TRAINING OF FARMERS

I beg to give the following Notice of Motion.

AWARE THAT, Pesticides are chemicals used to kill, repel, or control forms of animal and plant life considered to damage or be a nuisance in agriculture and domestic life. They include herbicides, insecticides, nematocides, fungicides, and many others. Herbicide is an agent, usually chemical, for killing or inhibiting growth of unwanted plants, such as residential or agricultural weeds and invasive species.

FURTHER AWARE THAT, Veterinary medicine is usually used in diagnosing, preventing and treating diseases in animals by the veterinary officers.

COGNIZANT THAT, Chapter 346 of the Kenya Law is usually about Pest Product Control ACT and largely speaks about use of pesticides (herbicides, insecticides, nematocides, fungicides, and many others).

CONCERNED THAT, In Lamu County there has been high misuse of pesticides, herbicides, animal medicines and illegal application of fertilizers in farms by farmers.

NOTING WITH CONCERN THAT, there are very few agricultural and veterinary officers doing the field work at least to train and sensitize farmers on the best practices of farmi

THEREFORE, I URGE this Assembly to compel the County Government to;

1. Conduct trainings to farmers to create awareness on the use of herbicides, pesticides animal medicines and fertilizers.
2. Conduct periodic surveys in farms to ascertain the products being used for farming.
3. Impose a charge/ fine to farmers caught practising harmful methods of farming.
4. Increase the budget for the department in the financial year 2025/2026 so that they can employ more staffs to do the field works.

Denotes of the day
