8. MOTION : INSTALLATION OF ROOFS ON ALL JETTIES

Hon. Speaker Sir, I beg to move the following Motion: -

THAT, aware that jetties serve as critical infrastructure for transportation, trade, and social connectivity, especially in coastal and island regions such as Lamu County;

FURTHER AWARE that these jetties are frequently used by passengers, traders, fishermen, and tourists who rely on them for daily economic and social activities;

(No. 082)

TUESDAY, JULY 21, 2026

(No.253)

NOTING that most jetties lack adequate shelter, exposing users to harsh weather conditions including extreme sun, heavy rainfall, and strong winds, thereby causing discomfort, health risks, and disruption of services;

CONCERNED that the absence of proper roofing infrastructure undermines safety, reduces usability of the facilities, and negatively affects the overall experience for residents and visitors;

ACKNOWLEDGING that provision of roofs on jetties would enhance safety, protect users and goods, promote dignity, and improve efficiency of maritime transport services;

NOW THEREFORE, this Assembly urges the County Executive Committee Member for Transport, Infrastructure and Public Works to:

1. Facilitate the installation of durable and well-designed roofing structures on all existing jetties within the County;
2. Ensure that all newly constructed jetties incorporate roofing as a mandatory component of their design;
3. Allocate adequate budgetary resources for the construction, maintenance, and periodic inspection of these roofing structures; and
4. Collaborate with relevant stakeholders to adopt modern, climate-resilient designs suitable for coastal environments.
